C. INTRODUCTION

The content of this report is based on the statistics provided by the 1981 Census of Canada for Yukon. Major characteristics have been selected from the 1981 Census in an attempt to provide an easily referenced, statistical guide for Yukon. The Statistics Canada documents utilized to produce this report can be found in the Statistical Reference Library of the Bureau of Statistics of the Executive Council Office. Additional copies and/or clarification of the information may be obtained from the Bureau of Statistics. A User Survey Form is included to request your input on this publication in terms of its usefulness, presentation of the information, choice of statistics, etc. Your constructive comments would be most welcome.

Readers may be interested in the companion volume to this report, namely, "Selected Characteristics from the 1981 Census of Canada Volume 2: Yukon and Canada--A Comparative Analysis". Utilizing a similar format to Volume 1, Volume 2 takes the same statistical areas covered in Volume 1 and presents a comparision between Canada and Yukon. For more information or a copy of Volume 2, contact the Bureau of Statistics directly or, complete the enclosed publications request form and forward it to the Bureau.

C. INTRODUCTION

The content of this report is based wholly on the 1981 Census of Canada for Yukon and, in particular, the Statistics Canada publication "Statistical Information on the Federal Electoral District Yukon"(May, 1984). Major characteristics have been selected from the 1981 Census in an attempt to provide an easily referenced comparative analysis between Yukon and Canada. The Statistics Canada documents utilized to produce this report can be found in the Statistical Reference Library of the Bureau of Statistics of the Executive Council Office. Additional copies and/or clarification of the information may also be obtained from the Bureau of Statistics. A User Survey Form is included to request your input on this publication in terms of its usefulness, presentation of the information, choice of statistics, etc. Your constructive comments would be most welcome.

Readers may be interested in the companion volume to this report, namely, "Selected Characteristics from the 1981 Census of Canada--Volume 1: Whitehorse and Other Major Yukon Communities". Utilizing a similar format to Volume 2, Volume 1 takes the same statistical areas covered in Volume 1 and presents the appropriate statistics for all of the major communities in Yukon. For more information or a copy of Volume 1, contact the Bureau of Statistics.

*100% Data Base--the Census data utilized in sections 1 through 6 is based on a 100% sample, i.e., for all households.

**20% Data Base--the Census data utilized in sections 7 through 12 is based on a 20% sample of households with data weighted to provide estimates of the entire population.

NOTE: Entries may not sum to marginal totals because of independent random rounding.

1. POPULATION

At the time of the 1981 Census the population of Yukon was 23,153 showing an increase of 6.0% since the previous enumeration in 1976. The portion of the population over 18 increased from 14,095 to 15,720 between 1976 and 1981.

The number of senior citizens in Yukon grew by 16.7% between 1976 and 1981. This age group represented 3.2% of Yukon's population, compared to 8.8% in Canada.

Married people accounted for 67% of the adult population aged 15 and over. The number of divorced people in Yukon increased 50.7% between 1976 and 1981, to represent 3.3% of the adult population.

Of the families living in Yukon, 87.7% had both spouses in the home. The remaining families in Yukon, 12.4%, were one-parent families, compared to 11.3% for Canada.

The percentage of households which contained people living alone represented 19.5% of the total households in Yukon compared to 20.3% for Canada as a whole.
